

KALVACHARLA SHIVASHANKAR

Data Analyst — Fresher

+91-7288050586 | shivakalvacharla19@gmail.com | Warangal, Telangana, India | linkedin.com/in/shivashankarkalvacharla | github.com/shivashankarkalvacharla

PROFESSIONAL SUMMARY

B.Tech CSE (Data Science) graduate with hands-on experience in data analysis, SQL, Python, dashboarding, and BI reporting, gained through AICTE-certified internships (Microsoft Azure AI, Google AI/ML). Skilled in transforming raw data into actionable business insights using Pandas, NumPy, Power BI, and SQL, with experience building ETL pipelines, exploratory data analysis, data storytelling, and predictive models. Strong foundation in statistics, data visualization, stakeholder reporting, and end-to-end analytics workflows.

INTERSHIP EXPERIENCE

AI & Data Analytics Intern — Microsoft Azure AI (Edunet Foundation, AICTE-Certified)

India | May 2025 – Jun 2025

- Performed exploratory data analysis (EDA) on structured datasets using Python (Pandas, NumPy), generating actionable business insights and stakeholder-ready reports.
- Built automated ETL pipelines to extract, clean, and transform data from multiple sources, improving data-processing efficiency by 40%.
- Developed and deployed ML models on Microsoft Azure ML Studio for classification and regression tasks, reducing deployment time by 30%.
- Built interactive dashboards and data visualizations to communicate KPIs and trends, supporting data-driven decision-making for stakeholders.

AI/ML Engineering Intern — Eduskills (Google for Developers, AICTE-Certified)

India | May 2025 – Aug 2025

- Completed industry-aligned AI/ML projects covering data preprocessing, model building, and evaluation, guided by expert mentorship and career-readiness workshops.

EDUCATION

Balaji Institute of Technology and Science — Narsampet, India 2022 – 2026

B.Tech, Computer Science & Engineering (Data Science), CGPA: 8.22

Kakatiya Graduates Junior College — Narsampet, India 2020 – 2022

Intermediate, MPC, 89%

SKILLS & INTERESTS

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA)

Databases & SQL: SQL (CRUD, JOINS, Indexing, Aggregations), MySQL, MongoDB

Languages: Python, SQL, Java, JavaScript, C

Machine Learning: Scikit-learn, TF-IDF, NLTK, Cosine Similarity, Feature Engineering, Statistical Modeling

BI & Reporting Tools: Power BI, Tableau, Microsoft Excel (Pivot Tables, VLOOKUP), Dashboarding, Data Storytelling

Other Tools: Git, GitHub, VS Code, Microsoft Azure

Concepts: ETL Pipelines, Data Cleaning, Statistical Analysis, Stakeholder Reporting, SDLC, Agile, DSA

PROJECTS

Customer Sentiment Analysis Dashboard

- Analyzed 50,000 Amazon reviews to build a binary sentiment classifier, achieving 88% accuracy and a 0.87 F1-score using TF-IDF and Logistic Regression.
- Built an NLP data-cleaning pipeline (tokenization, stopword removal, lemmatization) that improved model performance by 12%.
- Visualized and presented sentiment trends and key metrics using Matplotlib and Seaborn to stakeholders, supporting data-driven reporting.

Anime Recommendation System

- Applied Cosine Similarity-based collaborative and content-based filtering across 10,000+ entries to achieve 92% recommendation accuracy.
- Optimized MongoDB indexing and query design, improving query efficiency by 35%, while serving real-time predictions with sub-150ms latency.

CERTIFICATIONS

Python Full Stack Development — 2025

Microsoft Azure AI Internship Certification — 2025

SQL for Data Analysis — 2025

Java Full Stack Development — 2025
